Test Scripts

Script Description

As a System Administrator, I want to be able to declare a tenant so that I can later assign an Asset to the tenant.

User Interface Requirement associated within test script (see below)

Testing Requirements

This test scenario covers the following high-level test:

- RADPM2.3

User Groups

- System Administrators

Smarter Balanced /Program Management

Program Management/Manage Tenant

Script 7.0 Manage Tenant- Declare a Tenant

Setup

- Program Management is operational and MongoDB is connected
- QA staff has either a Local or Cloud environment deployed for testing to interact with UI.
- QA Staff must also have a REST Client available to perform tests with verb GET, POST, PUT or DELETE
- QA staff must test the script on Internet Explorer 8+ (Windows), Firefox 8+ (Macintosh, Linux & Windows), Safari 5+ (Macintosh), Chrome 16+ (Macintosh, Linux & Windows)"
-

Teardown

- None

Script Steps

Step #	Test Action	Expected Results
1	Access PMI (http://localhost:8080/rest/tenant and click the "Manage Tenants" button for declaring a new tenant	Interface should open and should have an option to declare a new Tenant
2	Repeat Step 1 on Chrome, Firefox, IE, Safari browser	Interface should open up and it should be similar across all browsers
3	Click "New" button to declare a new tenant	Corresponding PMI page should open. UI should have option declare a tenant and tenant type
4	Enter a name for Tenant and Type and click the Save button	The defined Tenant should get saved as a new Tenant-tenancy. Verify the same using MongoDB OR via REST Client
5	Enter a name for Tenant and Type and click the Cancel button	The defined State District should NOT get saved as a new Tenant-tenancy. Verify the same using MongoDB OR via REST Client

Smarter Balanced RFP#11/Program Management

Program Management/Declare Tenant

6	Enter just the Tenant OR Type and click the Save button	An appropriate error message should show up and the record should not get saved
